The Fever's Hold on Those Places Seems to Be Growing Stronger.

(By Associated Press.)
NEW OLLIDARS, October 3.—The official report to 6 A. M., Monday is as

follows:
New cases, 17; total, 3,312; denths, 1; total to date, 411; new foct, \$\( \)\_a cases under treatment, 187; cases discharged, 2,-si.

der treatment, 187; cases discharged, 2-614.

The record of, 17 hew cases and one death is the lowest since July last. The continued low record and the anticiprited early approach of cold weather, caused Dr. White to issue orders to his forces to discontinue all general oiling and other anti-mosquito work, all general block fumigation, except in blocks already begun. There are exceptions to this, where there are still nests of infection. All house-to-house inspection will be discontinued after October 15. Only two of the new cases are above Canal Street. A case was taken off the British steamship Etonian, but it was contracted in the city, as the vessel had been here since the 27th of September. The only death in the city occurred in Algiers.

News reached the city of the death of Dr. Charles M. Shanely at his home in Barrataria, which is 18 miles from the city. Dr. Shanely discovered the infection in his neighborhood, and was placed in charge of the work by the State board. He was stricken with the fever about three weeks ago and was treated at the Emergency Hospital in the city and discharged as cured, but against the advice of Dr. Jones he returned home and resumed his charity work, which had been interrupted. He suffered a relapse and died Monday morning at 5 o'clock. Passed Assistant Surgeon G. M. Corput will, go to Patterson to-morrow to look Passed Assistant Surgeon G. M. Corput will go to Patterson to-morrow to look over the situation, and it is very likely that he will be placed in charge of the work of cleaning up the infection there. Reports from the country were: Patterson, 9 new cases; one death. Kenner, 2 new cases; 1 death. Bayou Natchez, 1 suspicious case; 1 death. Barraturia, 1 death.

PENSACOLA, FLA., October 9.—The following is the summary of the yellow fever situation, as given to-night by the State Board of Health:

State Board of Health:

New cases, 22; deaths, 4; total cases, 35; total deaths, 42; discharged, 114; under treatment, 123.

One death, that of Mr. Bowen, manager of the Southern Hotel, is not included in the official reports, as he did not expire until 6 o'clock after the official report had been promulgated.

The increase in the number of cases is due partly to the inspection made by the Citizens' Committee, who have volunteered their services and are making a house to house inspection each day. Owing to weather conflitions it is not expected that the cases will decrease within the next ten days, but rather increase.

Elaborate Precautions.

The most elaborate precautions will be taken to ensure the safety and comfort of the President while here. This is done in accordance with explicit instructions from Washington, which are used as the basis for all plans made.

The President and the secretary to the President, as heretofore stated, will occupy the first carriage, the remaining two seats containing Governor Montague and Mayor McCarthy. This carriage will be drawn by two horses. No footman will ride on the box, that place being occupied by a special officer with the President's party. The driver and escort will be picked men. No man will be allowed in the escort who does not thoroughly understand how to ride his Morse, and all horses, whether for carriages or escort, will be accustomed to the noise and confusion of parades and multitudes. The mounted escort, it is understood will be decreased.

or escort, will be accustomed to the noise and confusion of parades and multitudes. The mounted escort, it is understood, will be disposed as follows: A detail sufficient to clear the street from curb to curb will ride ahead of the President's carriage; one man on each side of the President's carriage, slightly to the rear of the rear wheel; a detail sufficient to keep the street clear from curb to curb behind the second carriage.

The second carriage will be reserved absolutely for the special officers and one of the stenographers accompanying the party. It will have seats for four, and will be a low carriage, allowing freest entrance and exit. The third carriage will be reserved for one of the assistant secretaries to the President and the President's physician.

The remainder of the President's party, including the representatives of the press who accompany him, will be suitably provided for in carriage immediately following. The entire party will be provided for in carriages, wherever carriages are taken; to be driven together, and not separated in any way by escort or local conveyances anywhere on the route.

Not more than two local representatives will be assigned to any carriage, and none Not more than two local representatives will be assigned to any carriage, and none

Keep Streets Clean.

Keep Streets Clean.

At the depot and all points at, which the carriages are used, including the entire route of the drive around the city, thorough provision will be made to keep the passageway entirely clear, with ample margin on both sides. Sufficient side-walk space will be roped off and kept clear to make the entire carriage lire free of access by the members of the purty and the Reception Committee, so that carriages can be entered at once, without the delay incident to driving up each carriage separately and loading with its occupants. Carriages will not be driven at more than a moderate trot at any point.

President's train, or any vehicle in which he may be, will be permitted. This rule will be rigidly enforced.

Carriage and hotel arrangements, seating on stands, and all other plans in which the President's party are included will include the entire party, and will, it is said, be arranged strictly in accordance with the order in which they are named in the list furnished by the secretary to the President. In the assignment of quarters at the hotel this rule will be followed with the utmost strictness.

Care will be taken in a contract of the luncheon was in the city Sunday looking over the ground. It was said yesterday that 3,000 pieces of sliver will be used on the tables. The caterer will bring fifty skilled waiters to Richmond with him.

It will be as follows: Silk hat; black Prince Albert coat; standing wing collar; black puff tie; edium color striped trousers; black shoes; tan gloves.

A Knotty Point

#### A Knotty Point.

The assignment of the school children to positions in the streets is proving a knotty point. It was arranged yesterday to rope off from Ninth Street in Adams on both sides of Broad as space beginning at the curbstone and extending six feet toward the middle of the street but it is not clear whether or not this can be permitted under the instructions from Washington. If the plan is feasable it will be carried out and the white children will be massed on the southside of Broad Street four deep and the negro children on the north side. There will be about 5,000 negroes and 7,000 whites. The children of the first four primary grades in the school will 7,000 whites. The children of the first four primary grades in the school will not be in line, being only from 7 to 8 years of age. As the President drives by the 12,000 children will cheer and wave flags, It was not believed that it will be possible to have the great High School chorus in the Capitol Square to sing for the President.
